EXPLANATORY NOTES

1. **Source of Statistics**: Imports documents collected by Canada Customs are the basic source of import statistics, except for data on imports of electricity, which are are reported by the importing firms directly to Statistics Canada.

2. **Timing**: Until July 1979, statistics for a month included all shipments for which Customs documents were received at Statistics Canada up to, and including, the last working day of the month. Starting with data for August 1979, the closing of the statistical month is defined according to the last calendar day of the month, based as closely as practicable, on the date of clearance from Customs. Individual shipments may not be recorded in statistics until some time after their arrival or departure because of administrative procedures which permit late filing of documents. Trade in electricity and imports of "Swap oil" from the United States for a given month are included in the statistics for the following month because they are collected too late for inclusion in statistics for the month indicated.

3. **Coverage**: Import statistics include all goods which are cleared by Customs on arrival in Canada, together with goods which are entered into customs warehouses. The following commodity movements "are excluded" from import statistics (being however recorded separately as Special Transactions – Non-trade in Table 4): settlers' effects; private donations and gifts; goods imported by foreign representatives in Canada or brought back by Canadians returning from postings abroad; temporary imports for exhibition or competition, including films. Bunker supplies and ships' stores purchases by Canadian vessels or aircraft abroad, temporary imports and goods merely moving in transit through Canadian territory are not reflected in any of the statistics.

4. **Classification**: Importers, when reporting to Revenue Canada, Customs and Excise, classify commodities according to the "Canadian International Trade Classification" (cf. Cat. no. 65-502E, Statistics Canada). For publication purposes, in accordance with the confidentiality restrictions of the Statistics Act, a condensed classification is used. These classifications are based on the "Standard Commodity Classification".

5. **Country and area of consignment**: Imports are classified to the country from which goods are consigned to Canada, except for goods originating in Central or South America but consigned to Canada from the United States. These goods are credited to the country of origin, except for "Swap Oil" from the United States which are credited to this country. Statistics are compiled and presented for the individual countries listed on page 10 of this report. A classification of countries with a statement of territorial limits used for statistical purposes will be found in the January issue of this publication. Amendments effective in any year are listed in the blue pages of the January and December issues for that year. The "principal trading areas" shown in some tables include groupings which are defined as follows:

NOTES EXPLICATIVES

1. **Source des statistiques**: La statistique des importations se fonde principalement sur les documents d'importation recueillis par les Douanes du Canada, sauf dans le cas des importations d'électricité, qui sont déclarées directement à Statistique Canada par les compagnies importatrices.

2. **Période**: Jusqu'à juillet 1979, les statistiques d'un mois donné visaient toutes les livraisons pour lesquelles Statistique Canada avait reçu des documents de douane jusqu'au dernier jour ouvrable du mois. À partir du mois d'août 1979, la fin du mois statistique correspond au dernier jour du mois civil où s'effectue, dans la mesure du possible, le dédouanement. De diverses livraisons peuvent ne pas être prises en compte dès leur arrivée ou leur départ à cause de la procédure administrative qui donne lieu à une présentation tardive des documents. Le commerce d'énergie électrique et les importations selon l'arrangement avec les États-Unis pour des échanges de pétrole brut d'un mois donné sont présentés dans les statistiques du mois suivant parce qu'on obtient les données trop tard pour qu'elles puissent faire partie des statistiques du mois de référence.

3. **Couverture**: La statistique des importations comprend toutes les marchandises dédouanées dès leur arrivée au Canada plus les marchandises entreposées à la douane. Les mouvements de marchandises suivants sont "exclus" de la statistique des importations (ils sont toutefois classés séparément comme Transactions spéciales – hors commerce, au tableau 4); les effets d'immigrants; les dons et cadeaux privés; les marchandises importées par des diplomates étrangers au Canada ou rapportées par les Canadiens rentrant de leur service à l'étranger; les importations provisoires pour des expositions ou des concours, y compris les films. Les approvisionnements de soute et de bord achetés à l'étranger par les navires et les avions canadiens, les importations provisoires et les marchandises ne faisant que passer par le territoire canadien, ne figurent dans aucune statistique.

4. **Classification**: Dans leurs déclarations à Revenu Canada, Douanes et Accise, les importateurs classent les marchandises d'après la "Nomenclature canadienne pour le commerce international" (no. 65-502F au cat. de Statistique Canada). Dans nos publications, conformément aux restrictions de confidentialité énoncées dans la Loi sur la statistique, on utilise une version abrégée. Ces deux classifications se fondent sur la "Classification type des produits".

5. **Pays et région de consignation**: Les importations sont attribuées au pays d'où elles ont été consignées à destination du Canada, sauf en ce qui concerne les marchandises provenant de l'Amérique centrale ou de l'Amérique du sud qui sont expédiées au Canada par les États-Unis; ces marchandises sont atrribuées au pays d'origine, sauf pour les échanges du pétrole brut avec les États-Unis qui sont crédités à ce pays. Les données statistiques sont calculées et présentées pour chaque pays mentionné à la page 11 de cette publication. Une classification des pays ainsi que l'exposé des limites territoriales employés aux fins de la statistique sont donnés dans l'édition de janvier de cette publication. Les modifications apportées à une année quelconque paraissent dans les pages bleues du rapport de janvier et de décembre de l'année concernée. Les "marchés principaux" apparaissant dans certains tableaux comprennent les groupements définis comme suit:

Other E.E.C.: Belgium, Denmark, France, Germany (F.R.), Ireland, Italy, Luxembourg, Netherlands and Greece (effective January 1981). The United Kingdom is also a member of the E.E.C. but is shown separately because of the importance of its trade with Canada.

Other O.E.C.D.: Austria, Finland, Iceland, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, Australia, New Zealand. (The E.E.C. countries, United States, Japan and Canada are also members of O.E.C.D. – the Organization for Economic Cooperation and Development).

Other America: This group includes all countries and territories of North and South America (other than the United States and Canada) including Greenland, Bermuda and Puerto Rico.

6. **Quantities**: Tables 3 and 4 show quantities, where available, in terms of the units listed on page 8 of this report. Measures of weight or volume generally exclude any packing required for shipment and numbers refer to complete (or substantially complete) units imported excluding parts.

7. **Valuation**: Imports are generally recorded at the values established for Customs duty purposes according to the provisions of the Customs Act. Customs values are identical to selling prices for most arms-length transactions. However, Customs values exceed company transfer prices for most transactions between affiliated firms. (Beginning in 1970, imports of automative products from the United States have been recorded at company transfer prices rather than Customs values). Import documents are required to show values which exclude all transportation charges. Some imports from the United States are however purchased on a "delivered" basis and their prices therefore reflect an allowance for transportation costs.

8. **Abbreviations**: Designations of countries and commodities used in this report are often abbreviated or shortened. A key to abbreviations of countries appears on page 10 of this report. The letters "n.e.s." mean "not elsewhere specified".

9. **Revisions**:

   a. **Data for current month**: Statistics for the current month published in the "Preliminary Statement of Canadian International Trade" (65-001P) and in the "Summary of Canadian International Trade" (65-001) contain preliminary figures. However, figures published in "Imports by Commodities" (65-007), "Exports by Commodities" (65-004), "Imports by Countries" (65-006) and "Exports by Countries" (65-003) have been verified for reporting or processing errors.

   b. **Data for previous months of the current year**: Figures for previous months of the current year remain subject to revision until the monthly reports for December have been published. In the case of the "Summary of Canadian International Trade" (65-001), the revised December figures appear in the January issue of the following year. Commodity/Country sub-totals revised by $10,000 or more in any monthly publication are shown at the beginning of the reports 65-007 and 65-004.

Autres C.E.E.: Allemagne (R.F.), Belgique, Danemark, France, Irlande, Italie, Luxembourg, Pays-Bas et Grèce (à partir de janvier 1981). Le Royaume-Uni est aussi membre de la C.E.E. mais il est séparé dans les statistiques à cause de son importance dans le commerce du Canada.

Autres O.C.D.E.: Autriche, Espagne, Finlande, Islande, Norvège, Portugal, Suède, Suisse, Turquie, Australie, Nouvelle-Zélande. (Les pays membres de la C.E.E., les États-Unis, le Japon et le Canada sont aussi membres de l'O.C.D.E. – l'Organisation pour la coopération et le développement économique).

Autres Amérique: Cette catégorie comprend tous les pays et les territoires de l'Amérique du nord et du sud (sauf les États-Unis et le Canada), y compris le Groenland, les Bermudes et Porto Rico.

6. **Quantités**: Les tableaux 3 et 4 donnent les quantités, lorsqu'elles sont disponibles, exprimées dans les unités énumérées à la page 8 de cette publication. Les mesures de poids ou de volume excluent habituellement l'emballage nécessaire à la livraison et les nombres représentent le nombre d'articles complets (ou presque complets) importés sans les pièces.

7. **Evaluation**: Les importations sont habituellement présentées selon les valeurs établies aux fins du prélèvement des droits de douane conformément aux dispositions de la Loi sur les douanes. Les valeurs des douanes sont identiques aux prix de vente dans le cas de la plupart des opérations entre parties indépendantes. Toutefois les valeurs douanières dépassent les prix de transfert des sociétés dans le cas de la majorité des opérations entre entreprises affiliées. (À partir de 1970, les importations de produits de l'industrie automobile en provenance des États-Unis sont indiquées aux prix de transfert et non pas selon les valeurs fixées en douane). Les valeurs déclarées dans les documents d'importation ne doivent pas comprendre les frais de transport. Certaines importations en provenance des États-Unis sont toutefois sur une base de "livraison" et leur prix englobe par conséquent les frais de transport.

8. **Abréviations**: Les noms de pays et de marchandises cités dans la présente publication sont souvent abrégés ou raccourcis. L'explication des abréviations des pays figure à la page 11 de cette publication. Les lettres "n.d.a." signifient "non dénommé ailleurs".

9. **Rectifications**:

   a. **Données du mois courant**: Les statistiques du mois courant figurant dans le communiqué "Préliminaire sur le commerce international du Canada" (65-001P) et le "Sommaire du commerce international du Canada" (65-001) contiennent des chiffres préliminaires. Cependant, les chiffres dans "Importations par marchandises" (65-007), "Exportations par marchandises" (65-004), "Importations par pays" (65-006) et "Exportations par pays" (65-003) ont été vérifiés pour des erreurs de déclaration et de traitement.

   b. **Données des mois précédents de l'année courante**: Les chiffres des mois précédents de l'année courante demeurent sujets à révision jusqu'à la parution des publications mensuelles de décembre. Dans le cas du "Sommaire du commerce international du Canada" (65-001), les chiffres de décembre rectifiés paraîtront dans l'édition de janvier de l'année suivante. Les totaux rectifiés par $10,000 ou plus au niveau de marchandise/pays dans les rapports mensuels figurent au commencement des publications 65-007 et 65-004.

c. **Data for the previous year:** Revisions to the previous year appear in the December issue of the following year. Commodity/Country figures revised at that time are shown at the beginning of the reports 65-007 and 65-004.

When statistical series are adjusted for seasonal variations, the revised figures are reflected in the April issue of the "Summary of Canadian International Trade" (65-001).

Note: Cumulative totals in all reports reflect the revisions applied up to the date of printing.

0. **Treatment of Confidential Information:** It is occasionally necessary to withhold publication of details where commodity or country information is known to involve disclosure. The suppression of commodity or country detail, however, does not affect aggregate totals, which include all transactions reported during the calendar month.

1. **Notes on Sampling:** Effective January 1, 1982, the 10 per cent systematic sample of low valued import documents from the United States, as applied since January 1969 and revised in January 1975, has been discontinued. Presently, all shipments exceeding $800 are processed and compiled by complete count, while the value of shipments below $800 is estimated.

For further information, please contact the Trade information Unit, International Trade Division, Statistics Canada, Ottawa, K1A0T6

c. **Données de l'année précédente:** Les rectifications à l'année précédente paraîssent dans l'édition de décembre de l'année suivante. Les chiffres par marchandise/pays rectifiés à ce moment-là figurent au commencement des publications 65-007 et 65-004.

Quand les séries statistiques sont désaisonnalisées, les chiffres rectifiés sont pris en compte dans l'édition d'avril de "Sommaire du commerce international du Canada" (65-001).

Nota: Les totaux cumulatifs figurant dans toutes les publications prennent en compte toutes les rectifications apportées jusqu'à la date d'impression.

10. **Renseignements confidentiels:** Il est parfois nécessaire de supprimer le détail des données relativement à certaines marchandises ou à certains pays pour protéger le caractère confidentiel de données individuelles. La suppression du détail des marchandises ou pays ne modifie toutefois pas les totaux agrégés qui comprennent toutes les opérations dont il a été fait rapport au cours du mois civil.

11. **Notes sur la méthode d'échantillonnage:** À partir du 1er janvier 1982, l'échantillonnage systématique de 10 p. 100 du montant des marchandises de faible valeur importés des États-Unis, tel qu'appliqué depuis janvier 1969 et révisé en janvier 1975, a été discontinué. Présentement, pour toutes les livraisons dont la valeur excède $800, le traitement et le calcul sont exhaustifs, alors que la valeur des livraisons inférieures à $800 est estimée.

Pour de plus amples renseignements, prière de vous adresser à la sous-section de l'information sur le commerce, Division du commerce international, Statistique Canada, K1A0T6
